Press Release

New Access Control Brands & Products

Introducing some new Brands & Products available from First Fence

New Access Control Brands

First Fence is proud to announce a strategic expansion with the launch of three industry-leading access control brands: AES, Akuvox and Pal Electronics.

This move reinforces our current offering to residential, commercial and industrial clients, enabling us to offer even more high-tier security solutions, tailored to the industries' evolving needs.

AES

AES (Advanced Electronic Solutions):

Renowned for robust, award-winning wireless and hardwired GSM/DECT intercom systems that bridge the gap between architectural elegance and rugged reliability.

Akuvox
Open A Smart World

Akuvox: A pioneer in smart intercoms, leveraging AI, SIP, and Cloud technology to provide high-definition video entry and seamless mobile app integration.

PAL
ELECTRONICS
SYSTEMS

Pal Electronics: A leader in 4G/LTE wireless gate control and smart management systems, specialising in user-friendly, cloud-based interfaces for effortless remote access.

New Access Control Products & Variants

There is a huge range of products available across these 3 new brands, here is a selection of the options available to add to your existing system or that we can incorporate into a new security solution for your entrance.

Pal Electronics LPR Camera:
Licence plate recognition camera with easy to manage web-based portal.

Akuvox E18-C Touchscreen Video Intercom:

Ideal for apartment blocks or busy commercial sites. Facial recognition, QR codes and more.

Akuvox S565 10-inch Indoor Monitor:

Perfect device to have on a reception desk or inside an apartment, users can see and talk to whoever is at the gate.

Pal Electronics Spider-I:

4G GSM smart device with online management portal and smartphone app

AES I-Gate Plus GSM Dial-to-open:

Dial the sim card number and the gate will open for you.

AES OPYN Video Intercom:

IP or 4G versions available - calls directly to your mobile - open the gate from anywhere in the world.

AES Commercial E-Loop:

Wireless vehicle detection device.

What This Means

“We are thrilled to expand our access control portfolio with the addition of these three industry-leading brands. This reinforces our commitment to providing cutting-edge, reliable, and versatile entry solutions for both residential and commercial applications.

By integrating these top-tier manufacturers alongside our existing automation and access control products, we are empowering our clients with a broader range of options—from sophisticated IP video intercoms to advanced cloud-based GSM controllers—ensuring that every property can benefit from the highest standards of modern security.

Together, these additions allow us to provide more tailored, future-proof solutions that prioritise user convenience without ever compromising on safety.”
