

Portagate Barrier

First Fence

Ideal for installation within:

The Portagate™ is a blow moulded high density polyethylene barrier, supplied as a 3 or 4 gate system. Light and compact, the Portagate™ is designed to meet communications industry requirements and enables increased quantities per vehicle.

A Versatile & Robust Barrier

Height 1000mm

Width 750mm

Weight 6.5Kg (3 Gate)
9.0Kg (4 Gate)

Material (Body) Polyethylene

Material (Feet) Recycled
PVC

Standards CH8 and Street
Works Act
EN12899-1
(reflective only)

Firm Hold

By sliding the top hing clip up and down, the orientation of the panels can be locked in position to ensure added rigidity.

Added Stability

Designed to accept anti-trip recycled feet for increased stability.

Temporary Signage

Recesses are included for toggle mounted courtesy signs to enable the system to be fully closed with the signs still attached.

Stackable

Can be stacked open in any 180 degree orientation, with a maximum recommended stacking height of 20 units for 4 gate systems and 25 units for 3 gate systems.
