Horizontal V Shaped Beams

The profile of the Mesh gives a unique aesthetic appeal. The V Shaped design increases rigidity, stability and strength making it hard to climb.

Secure Anti-Climb Features

V Mesh is made from steel wires that are incredibly difficult to cut through. As well as this, it is very hard to climb over and resilient to direct attack.

Increased Surveillance

V Mesh Fencing is constructed from steel wire, making it incredibly robust. However, the open mesh design gives security systems a clear view to the other side.

Green Black Other Colours Available

Prison Mesh Gates are compatible with V Mesh.
