Heavy-Duty Protection, Wildlife-Friendly Engineering!

Our Badger Netting delivers a superb combination of structural resilience and animal-inclusive engineering, designed to integrate with professional wire fencing systems.

Constructed from high-tensile wire mesh fully compliant with BS EN 10223-5/10244-2 standards, this netting provides a high-durability exclusion solution that prevents badger access and protects livestock against bovine TB, while ensuring wildlife remains unharmed. Serving as a resilient perimeter barrier for agricultural land, transport corridors, and conservation areas, it meets Highways Agency specifications H46 and H47 for exceptional, heavy-duty performance.

Precision-built for long-term field installation, each 1.58m high, 50m roll features a durable subterranean turn-out design to resist burrowing and withstand constant environmental exposure.

Key Features

- ✓ **Heavy-Duty Steel Construction**
(High tensile galvanised steel for superior corrosion resistance)
- ✓ **1580mm Extended Profile**
(Allows the wire fencing to be extended underground to prevent burrowing)
- ✓ **15-Line Wire Structure**
(15 horizontal wires create a dense, high-strength grid for structural rigidity)
- ✓ **Highways & Standards Compliant**
(Suitable for professional agricultural, transport and conservation applications)
- ✓ **Humane & Cost-Effective Defence**
(Create a non-injurious barrier to safeguard livestock from bovine TB)

Suitable For

- ✓ **Agricultural & Livestock Perimeter Protection**
- ✓ **Highways & Transport Infrastructure**
- ✓ **Forestry & Conservation Boundaries**
- ✓ **Subterranean & Hedgerow Reinforcement**
- ✓ **Property & Estate Perimeter Safety**

TECHNICAL SPECIFICATIONS - SKU: AGRI-HOR-0003

Material	High-Tensile Galvanised Steel Wire
Height	1580mm (158cm)
Installed Height	1030mm (103cm)
Trench Depth	300mm trench depth + 250mm outward turn-out flap
Roll Length	50mm
Weight	88kg
Line Wires	15 horizontal line wires
Line Spacing	8cm between verticals (Hinge joints)
Compliance/Standards	BS EN 10223-5, BS EN 10244-2, Highways Agency H46 & H47

Often Purchased With:

PastureGuard® Badger Gate

Designed to integrate into wire fencing and hard landscaping, providing a dedicated passage for badgers.

Agricultural Timber Posts

First Fence's selection of timber fence posts offer secure solutions for your fencing projects. Choose from Intermediate, corner, two-way and end posts, available in Tanalised UC4 or Creosoted versions

Good to Know:

- ✓ **Bovine TB Prevention:** Reduces disease transmission risks to cattle and livestock.
- ✓ **Humane Exclusion:** Non-injurious mesh shape prevents injury to badgers while maintaining a hard barrier.
- ✓ **Cost Efficiency:** High-tensile strength requires fewer strainer/intermediate posts than mild steel netting.
