FirstFence® HIRE & SALES

Police Crowd Control Barrier

Specification Sheet

SPC-CROWD-003A

Police Barriers for Crowd Control & Event Security

Designed for high-pressure environments requiring uncompromised pedestrian management and heightened perimeter security, our range of Met-spec Police Crowd Barriers provides a heavy-duty, maximum-stability solution for demanding crowd control applications.

Engineered from high-quality, corrosion-resistant galvanised steel compliant with BS EN 10244-2 standards, these robust barricades feature an anti-climb mesh infill, a tip-resistant reinforced footing, and a tamper-proof interlocking system that can only be dismantled sequentially from one end. Whether establishing secure perimeters at public demonstrations, managing stage lines at large-scale festivals, or guiding high-density footfall across sporting venues and city parades, our police barriers ensure a continuous, resilient barrier line that security teams can rapidly deploy and adapt on-site.

Key Features

- Heavy-Duty Galvanised Steel Construction
  (Compliant with BS EN 10244-2 standards for long-term durability)
- Anti-Climb Mesh Infill
  (Features a robust mesh design rather than open vertical bars)
- Tamper-Proof Interlocking System
  (A secure interlocking design that can only be dismantled from one end)
- Tip-Resistant Reinforced Footing
  (A specialised, reinforced base delivers exceptional stability)
- Rapid & Flexible Deployment
  (Quick installation, easy adjustments, & reusable across multiple events)

Suitable For

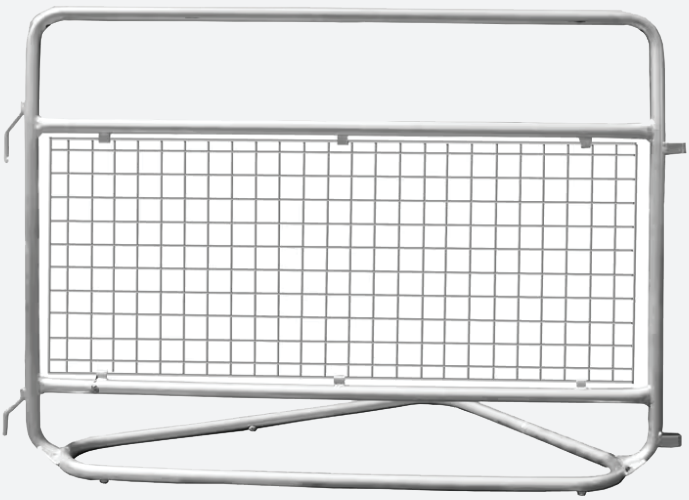

- Public Demonstrations & Protests
- Music Festivals & Live Concerts
- Major Sporting Events
- City Parades & Civic Ceremonies
- Transport Hubs & Public Venues
