

Prison Mesh Fencing

Ideal for installation within:

Airports | Commercial Sites | High Security Buildings
Railways | Schools and Colleges | Sports Stadiums

Galvanised to BS 10218-2:2012 T2 standard | Permanent and Durable
Anti-Climb Features | High level of security

Height
1800mm
2000mm
2400mm
3000mm

Width
2515mm

Post Types
Dig-In
Bolt Down

Material
Pre-Galvanised Steel

Optional Finish
Polyester Powder Coating:

Green Black Other
Colours
Available

Increased Surveillance

Prison Mesh has apertures of 76.2mm x 12.7mm which give security systems a clear view to the other side of the fence.

358 Mesh Panel

Prison Mesh is constructed from 4mm thick steel wires. With tight apertures, this fencing prevents people from putting their fingers through the fence.

Secure Anti-Climb Features

This system does not contain any sharp wires or edges, making it suitable for locations where children are present. However, the tight apertures make it incredibly difficult for potential intruders to climb this fence.
