

# FIRMUS PROFESSIONAL

The PROFESSIONAL barrier is distinctive yet designed to fit in with other barrier models visually and physically. In standard ORANGE with revised pin and eye system it will fit seamlessly into most site set ups.

It also boasts our revised, proven foot, class leading spigot which are very durable under normal field use. New lifting handles make moving and linking easier, new lugs improve stack ability and the small surface area to increase wind performance.

With a 96.5% recycled option, re cycling identification icons, and large embossed brand area, we think the new PROFESSIONAL BARRIER has your company name all over it!

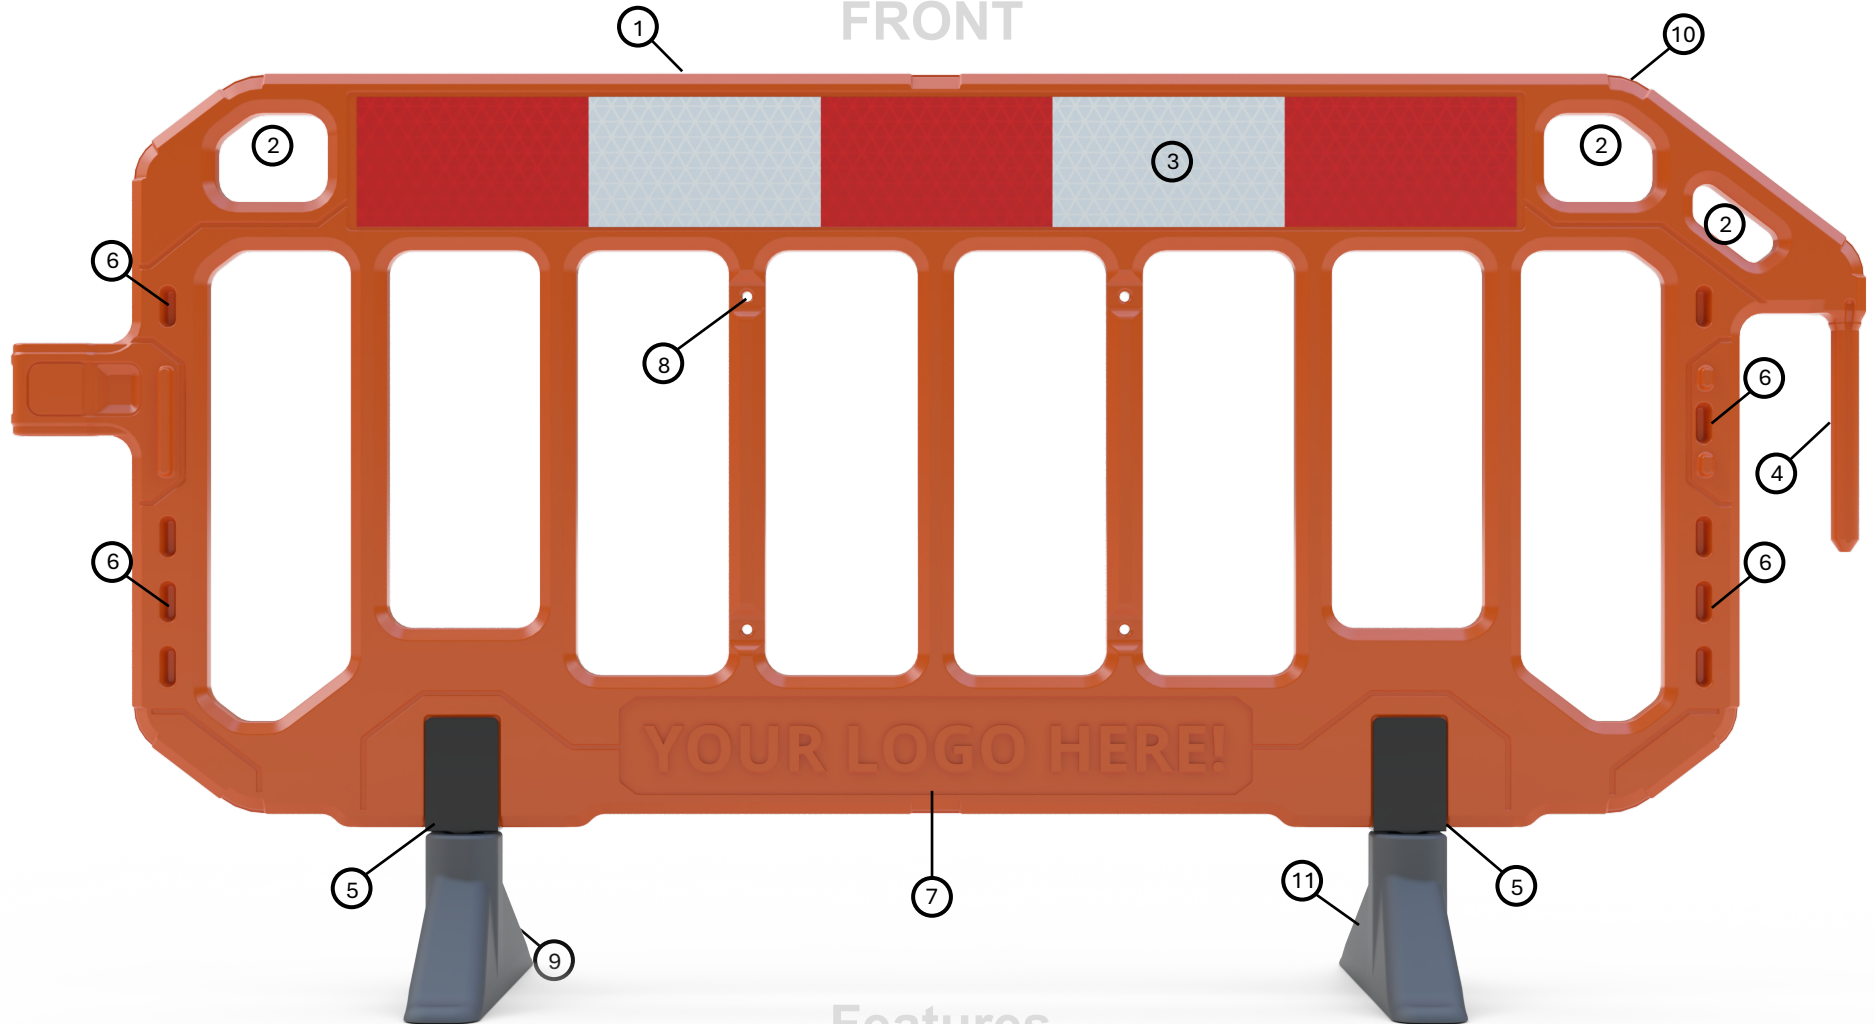

## KEY SPECS:

**Tot W** = 11.2 kg

**Wind** @ 11.2kg = 19.51mph (Cat C = 19.5mph)
