High Visibility Traffic Management & Site Safety

Engineered for maximum visibility and rigorous daily use, our Road and Traffic Cones deliver superior traffic management for construction sites, roadworks, public events, and emergency zones. Made from 100% recycled and high-performance PVC, these weather-resistant cones easily withstand harsh outdoor conditions and repeated handling.

Ranging from compact 500mm units to high-impact 1000mm and specialised 'No Waiting' models, our lightweight, stackable designs adapt to any safety requirement. Featuring highly reflective 'Sealbrite™' sleeves and conforming to strict BS and EN standards (including EN13422 Class R1B), they provide managers and contractors with a compliant, highly dependable solution to safely guide traffic and secure hazardous areas.

Key Features

- ☉ **Variety of Sizes**
(500mm to 1000mm heights to suit different environments)
- ☉ **Durable, Eco-Friendly Materials**
(Made from 100% recycled PVC to withstand harsh weather)
- ☉ **High Visibility**
(Fitted with reflective Sealbrite™ Class R1B sleeve)
- ☉ **Stackable Design**
(Lightweight and easily stacked over one another for easy storage)
- ☉ **Strict Safety Compliance**
(Meet BS 873 and EN 13422:2002 Class R1B standards)

Suitable For

- ☉ Construction Sites
- ☉ Roadworks
- ☉ Public Events
- ☉ Parking Control
- ☉ Emergency Situations

Road Cones

Available in 500mm, 750mm and 1000mm height options, these road cones are equipped with high-visibility sleeves to ensure maximum presence on site. They are an ideal solution for traffic management, helping to clearly indicate boundaries and cordon off areas, particularly along single carriageway roads.

Eco-Friendly Construction: Each cone features a robust, two-part moulded design supported by a heavy-duty base manufactured from 100% recycled composite.

Efficient Handling & Storage: A 360° recessed top grip allows for quick and easy deployment and retrieval. When not in use, their two-part structure and studded underside provide excellent grip and highly efficient stacking capability.

Bespoke Branding: Customise your product by having your cones embossed with a company name or logo. This matches your corporate identity, boosts brand awareness, and acts as a highly effective anti-theft deterrent.

No Waiting Cone - Conical

Standing at 500mm tall with a base of 280mm, our conical-style 'No Waiting' cones are essential for effective traffic management and health & safety compliance. They are the perfect solution for preventing unauthorised parking in restricted areas such as schools, hospitals, airports and public events.

Clear, Recognised Signage: The UK-recognised 'no waiting' symbol is on each side of the cone, ensuring the restriction is clearly communicated to drivers from multiple directions.

Eco-Friendly Construction: Manufactured with a high-visibility yellow polyethylene top, paired with a heavy-duty base made from 100% recycled materials.

Bespoke Customisation: Tailor the cones to your exact specifications. The cones can be customised with your company's corporate colours and logo to increase brand awareness and deter theft (contact our sales team for more information).

No Waiting Cone - Warden Style

Our triangular warden-style 'No Waiting' cones are ideal for prevent traffic from waiting or parking in areas that must remain clear of obstructions for health, safety or business operations. Weighing 3.1kg for added wind resistance they are effective for traffic management outside schools, hospitals, airport drop-off points and reserving parking spaces.

Clear, Protected Signage: The 'no waiting' symbol is embossed on each side within a recessed area, making it highly visible and protected from scuffs if the cone is knocked over.

Eco-Friendly Construction: Manufactured with a high-visibility yellow polyethylene top and supported by a heavy-duty base made of 100% recycled materials.

Bespoke Customisation: Tailor the cones to your corporate identity. The top of the cone can be customised with your company lettering and logo (available as an additional extra, dependent on order quantity).

Often Purchased With

Maxilite LED Hazard Warning Light

Can be fitted to most standard barriers or used with the optional cone bracket.

Microlite Traffic Cone Light Lamp

Designed to fit standard circular traffic cones. 360° lens for all-round visibility.

Cone Lamp Bracket

An essential accessory to securely attach warning lights to cones and similar traffic management equipment.

Telescopic Demarcation Pole

Designed to loop over two traffic cones to create a barrier. Available in red & white and yellow & black.

6V Battery for Traffic Cone Lights

Standard dry-type zinc-carbon battery compatible with the Maxilite and Microlite cone lights.
