Vertical by Design, Formidable by Strength!

Our Vertical Bar Railings provide a robust and prestigious fencing solution that prioritises high-level security without compromising on style. Characterised by their clean lines and sturdy uprights, these railings offer a classic, authoritative perimeter ideal for commercial frontages, urban regeneration projects, and high-end residential estates where a clear boundary and long-term structural integrity are essential.

To ensure a perfect fit for any project environment, we offer a comprehensive range of heights, including 0.9m, 1.0m, 1.2m, 1.5m, 1.8m, 2.0m, 2.1m, and 2.4m. Depending on your site requirements, these units can be supplied for dig-in installation or with integrated base plates for bolt-down applications on hard standing. To provide a premium finish that lasts, our railings are available with a high-quality Polyester Powder Coating (PPC). This finish is available in a wide spectrum of RAL colours, allowing you to match existing corporate branding or blend the perimeter into the natural surroundings, all while providing an extra layer of protection against UV fading and environmental wear.

Key Features

- ⊙ **Anti-Climb Design**
(The vertical orientation and lack of footholds makes them difficult to scale)
- ⊙ **Robust Steel Construction**
(The system offers impact resistance and structural rigidity)
- ⊙ **Corrosion Resistance**
(Galvanised and an optional PPC finish offer great resilience)
- ⊙ **Customisable Aesthetics**
(Powder Coating is available in an array of RAL colours)
- ⊙ **Perfect Integration**
(Designed to match the corresponding vertical bar railing gates)

Suitable For

- ⊙ Commercial & Retail Frontages
- ⊙ Public Parks & Heritage Sites
- ⊙ Educational Facilities
- ⊙ High-End Residential Developments
- ⊙ Industrial Units & Warehousing

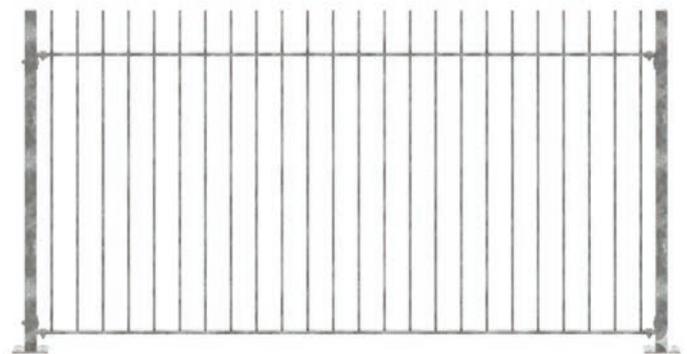

Choose Your Style

Dig In or Bolt Down, Galvanised or PPC

Our Vertical Bar Railings are engineered to adapt to the specific security and architectural demands of your site. Whether you are defining a boundary or securing a high-risk perimeter, we offer tailored configurations to meet your project goals:

Standard Height Options: Ranging from 0.9m to 1.2m, these heights are ideal for low-level boundaries, residential frontages, or pedestrian demarcation, providing a streamlined and professional safety solution without obstructing sightlines.

Enhanced Security Heights: For sites requiring a more formidable physical barrier, such as schools, commercial hubs, or industrial units, our high-level railings reach up to 2.4m, significantly increasing site protection and deterrence.

Vertical Bar Railings are available as bolt-down and dig-in formats to suit hard and softer ground substances.

Don't forget to add post mix or ground anchor bolts to your order!

Railing Kit Contents

- Vertical Bar Fencing Panel (1)
- Vertical Bar Fencing Posts (1)
- Angle Cleats (4)
- M10 x 30mm Bolts (4)
- M10 x 80mm Bolts (2)
- M10 Shear Nuts & Bolts (6)

Essential Extras

For a strong installation, you will need post mix or ground anchor bolts, depending on the post style (dig in or bolt down format).

M12 x 115mm Ground Anchor
ACCS-GEN-1001

M12 x 160mm Resin Stud
ACCS-GEN-1502

Post Mix
POST-MIX-0001

Injection Resin Vinyl
Ester Cartridge
ACCS-GEN-1950

Pristine Protection

A RAL-matched touch-up spray is the ultimate insurance policy for your new railings.

While powder coating is incredibly durable, minor scuffs from transit or installation are often unavoidable.

By matching the exact colour of your ball top railings, you can instantly vanish nicks and seal the steel against moisture.

Spray Paint Touch Up

- Zinc - SPRY-PAI-0001
- Green - SPRY-PA-6005
- Black - SPRY-PAI-9005
- Red - SPRY-PAI-3020
- Traffic Yellow - SPRY-PAI-1023
- Blue - SPRY-PAI-5010
- Light Blue - SPRY-PAI-5012
- Dusty Grey - SPRY-PAI-7037
- Anthraccite Grey - SPRY-PAI-7016
- Sky Blue - SPRY-PAI-5015
