Crowned for Elegance, Crafted for Endurance!

Our Ball Top Railings offer a timeless and robust fencing solution that combines classic architectural styling with dependable perimeter security. Distinguished by their decorative spherical finials, these railings provide a sophisticated, professional boundary that is particularly suited for urban regenerations, prestigious residential projects, and public spaces where a traditional aesthetic is preferred.

To ensure a precise fit for low-to-mid-level boundary requirements, our ball top range is available in 0.9m, 1.0m, and 1.2m heights. Engineered for versatility across various terrains, these units can be supplied for traditional dig-in installation or configured with integrated base plates for secure bolt-down applications on concrete or stone surfaces. Each system is finished with a premium Polyester Powder Coating (PPC), available in the full spectrum of RAL colors. This allows for total architectural integration—whether you require a bold corporate statement or a subtle finish that complements the local landscape—while ensuring long-term resistance to weathering and corrosion.

Key Features

- ⊙ **Timeless Aesthetic**
(The classic spherical finial gives a prestigious, traditional look)
- ⊙ **Versatile Mounting Options**
(Available in dig-in and bolt-down formats to suit most sites)
- ⊙ **Weather-Resistant Finish**
(Galvanised and an optional PPC finish offer great resilience)
- ⊙ **Customisable Branding**
(Powder Coating is available in an array of RAL colours)
- ⊙ **Safe & Smooth Profile**
(The rounded ball tops eliminate sharp edges)

Suitable For

- ⊙ Residential Developments
- ⊙ Public Parks & Gardens
- ⊙ Commercial Forecourts
- ⊙ Heritage & Restoration Sites
- ⊙ Pedestrian Walkways

Choose Your Style

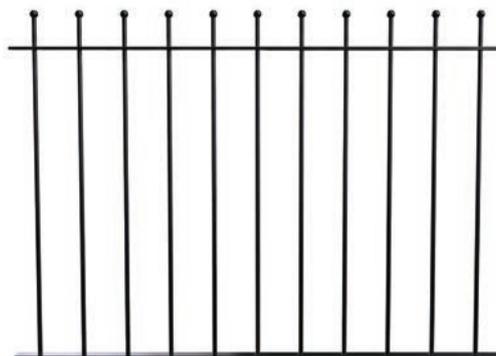

Dig In or Bolt Down, Galvanised or PPC

Available in 0.9m, 1.0m, and 1.2m, provide a streamlined and safe boundary solution. These heights are ideal for low-level boundaries, residential garden perimeters, or public areas where clear visibility and a non-intimidating presence are essential.

While these heights maintain a welcoming profile, the robust steel construction provides a reliable physical barrier, ensuring site protection without the need for imposing, high-level fencing.

Our systems are available in both Dig-In and Bolt-Down configurations, allowing you to choose between a permanent concrete-set foundation or a space-efficient surface fix.

Both options feature a premium Polyester Powder Coating (PPC) in a full spectrum of RAL colors, ensuring a vibrant, rust-free finish that can be tailored to your exact aesthetic requirements.

Railing Kit Contents

- Ball Top Fencing Panel (1)
- Ball Top Fencing Posts (1)
- Angle Cleats (4)
- M10 x 30mm Bolts (4)
- M10 x 80mm Bolts (2)
- M10 Shear Nuts & Bolts (6)

Ball Top Railings are available as bolt-down and dig-in formats to suit hard and softer ground substances.

Don't forget to add post mix or ground anchor bolts to your order!

Railings Product SKUs

Install Type	Height	SKU
Dig In	0.9m	RAIL-KIT-1500
Dig In	1.0m	RAIL-KIT-1501
Dig In	1.2m	RAIL-KIT-1502
Bolt Down	0.9m	RAIL-KIT-1550
Bolt Down	1.0m	RAIL-KIT-1551
Bolt Down	1.2m	RAIL-KIT-1552

Essential Extras

For a strong installation, you will need post mix or ground anchor bolts, depending on the post style (dig in or bolt down format).

Post Mix
POST-MIX-0001

M12 x 115mm Ground Anchor
ACCS-GEN-1001

M12 x 160mm Resin Stud
ACCS-GEN-1502

Injection Resin Vinyl
Ester Cartridge
ACCS-GEN-1950

Pristine Protection

A RAL-matched touch-up spray is the ultimate insurance policy for your new railings.

While powder coating is incredibly durable, minor scuffs from transit or installation are often unavoidable.

By matching the exact colour of your ball top railings, you can instantly vanish nicks and seal the steel against moisture.

Why it's a "Must-Have" for Railings

Corrosion Defence: Even a tiny scratch can become a gateway for rust on outdoor steel.

Invisible Repairs: Standard hardware store blacks rarely match the depth of a professional RAL 9005 (Jet Black) or RAL 6005 (Moss Green).

Customer Satisfaction: Saves the homeowner or contractor the massive headache of trying to colour-match after the delivery truck has left.
