Galvanised Strength, Sophisticated Security!

Our Vertical Railing Gates provide a blend of robust security and refined aesthetics, designed to perfectly match with our vertical railing system. Engineered from high-quality galvanised steel, these gates serve as a formidable yet visually appealing perimeter solution for many environments, ranging from private gardens and schools to high-traffic commercial spaces.

Each gate is built for longevity, featuring a corrosion-resistant finish that thrives in harsh elements with minimal maintenance. For those seeking an elevated look and added durability, we offer an optional powder-coated finish that enhances resistance to weathering and vandalism, ensuring a cost-effective, stylish, and secure entry point for years to come.

Key Features

- ⊗ **Superior Corrosion Resistance**
(The dual-layer finish protects the gate from rust)
- ⊗ **Anti-Vandal Design**
(Vertical bar construction makes the gates difficult to climb)
- ⊗ **Low-Maintenance Longevity**
(Unlike wood, steel gates require no staining or treatment)
- ⊗ **Custom Aesthetic Finishes**
(Choose from a variety of RAL colours to match existing systems)
- ⊗ **Perfect Integration**
(Designed to match the corresponding vertical railing fencing)

Suitable For

- ⊗ Educational Institutions
- ⊗ Public Parks & Playgrounds
- ⊗ Commercial Perimeters
- ⊗ Residential Gardens
- ⊗ Public Infrastructure

Choose Your Style

Single or Double Leaf

Our Single Leaf Gates are the ideal choice for pedestrian access or narrow footpaths, providing a compact and efficient entry point. For wider openings—such as vehicle access points, driveway entrances, or maintenance routes—our Double Leaf Gates offer a grander span and greater flexibility.

Both formats are engineered with the same high-strength steel and can be configured with various locking mechanisms to suit your specific security needs.

All vertical gates are available as bolt-down and dig-in formats to suit hard and softer ground substances.

Gate Specifications

| RAILING TYPE | MATERIAL | FINISH | HEIGHT | WIDTH | POST TYPE |
|-------------------------------------|------------------|----------------|------------------------------------|---|------------------|
| Vertical Bar Pedestrian (1.0m Wide) | Galvanised Steel | Galvanised/PPC | 1.0, 1.2, 1.5, 1.8, 2.0, 2.1, 2.4m | 1.0m | Dig In/Bolt Down |
| Vertical Bar Pedestrian (1.2m Wide) | Galvanised Steel | Galvanised/PPC | 1.0, 1.2, 1.5, 1.8, 2.0, 2.1, 2.4m | 1.2m | Dig In/Bolt Down |
| Vertical Bar Single Leaf | Galvanised Steel | Galvanised/PPC | 1.0, 1.2, 1.5, 1.8, 2.0, 2.1, 2.4m | 2.0, 3.0, 4.0, 5.0m | Dig In/Bolt Down |
| Vertical Bar Double Leaf | Galvanised Steel | Galvanised/PPC | 1.0, 1.2, 1.5, 1.8, 2.0, 2.1, 2.4m | 2.0, 3.0, 4.0, 5.0, 6.0, 7.0, 8.0, 9.0, 10.0m | Dig In/Bolt Down |

Essential Extras

For a strong installation, you will need post mix or ground anchor bolts, depending on the post style; a dig in or bolt down format.

Post Mix
POST-MIX-0001

M12 x 115mm Ground Anchor
ACCS-GEN-1001

M12 x 160mm Resin Stud
ACCS-GEN-1502

Injection Resin Vinyl Ester Cartridge
ACCS-GEN-1950

Gate Accessories

To ensure your gate operates safely and maintains its aesthetic appeal over time, investing in the right hardware is essential.

Safety is paramount, making a 4mm wire gate restrainer a critical addition; it acts as a fail-safe to prevent the gate leaf from falling in the event of a hinge failure. For daily operation, a floor-mounted gate stop provides a sturdy physical limit, protecting both the hinges and adjacent walls from damage caused by over-swinging or high winds.

Security can be bolstered with a heavy-duty padlock, ideally one with a hardened steel shackle to resist cutting and prying attempts. Finally, to keep the installation looking pristine, a touch-up spray paint can matched to specific RAL colours allows you to quickly seal any chips or scratches, preventing rust and ensuring a seamless, professional finish that lasts for years.
