

Key Features

- ⦿ Pre-Galvanised Steel to BS 10346
(Ensures compliance with latest standards)
- ⦿ Choice of Post Style
(Dig In or Bolt Down available)
- ⦿ Strength & Resilience
(High quality galvanised steel construction, rust resistant)
- ⦿ Versatility & Easy Installation
(Can be used in a wide range of settings, Dig In and Bolt Down)
- ⦿ Security
(The v-shape increases strength and deters climbing attempts)

Suitable For

- ⦿ Industrial Sites
- ⦿ Commercial Buildings
- ⦿ Railway Stations
- ⦿ Schools and Colleges
- ⦿ Perimeter Security

Complies with BS 10346

This is the key standard for pre-galvanised steel products.
Compliant with BS 1722 Part 14 upon request

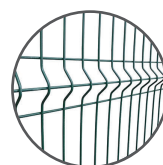

Visual appeal

Can be used in most public settings due to its subtle aesthetics. Has good visibility making it CCTV compatible.

Weather and damage resilient

Manufactured from pre-galvanised steel, the zinc coating helps prevent rust & corrosion. Powder coated as standard for extra resilience.

Wide range of heights and widths

Allows for customisation to suit many different applications both residential and commercial.
