Safe Edges, Strong Security!

Enhance your perimeter protection with our Safe Top Mesh, delivering a refined balance of advanced safety features and contemporary design. Purpose-built for environments where public interaction and risk reduction are a priority, this system incorporates a rolled top edge that eliminates sharp finishes without compromising strength or durability. Ideal for schools, parks, recreational spaces, and commercial developments, Safe Top Mesh provides a secure barrier that prioritises user safety while maintaining clear sightlines and a clean, modern aesthetic. Designed for specifiers who demand both performance and peace of mind, it transforms exposed boundaries into secure, welcoming spaces without sacrificing visual appeal.

Key Features

- ⊙ **Rolled Safety Edge**
(Smooth, returned top edge eliminates sharp edges, reducing injury risk)
- ⊙ **Easy Installation & Maintenance**
(Modular design allows quick assembly; robust materials require little upkeep)
- ⊙ **High Structural Strength**
(Welded steel panels provide durability to impact, bending and vandalism)
- ⊙ **Clear Visibility**
(Open mesh design maintains natural sightlines for surveillance)
- ⊙ **Low Maintenance Finish**
(Galvanised & powder-coated surfaces ensure long term resistance with little upkeep)

Suitable For

- ⊙ Educational Facilities
- ⊙ Public Parks & Play Areas
- ⊙ Recreational & Sports Facilities
- ⊙ Residential Developments
- ⊙ Commercial & Light Industrial Sites

Safe Top Mesh Profile

Safety First

Safe Top Mesh features a rolled or folded top edge that removes sharp points, significantly reducing injury risk in public areas.

It is designed to provide strong, rigid perimeter protection while prioritising safety over security deterrence.

Safe Top Mesh Security Fencing Kits

Our Safe Top Mesh Fencing kits are designed to offer robust security and safety with various applications. The kits are available in a selection of heights, from low-level 0.9m, 1.2m and 1.5m boundary markers to standard 1.8m security height. Each bay measures 3000mm (post centre to post centre).

Each kit is offered with a polyester powder-coating in addition to the galvanising, giving superb resistance to corrosion, weathering and wear and tear. The kits are available as a dig-in or bolt-down option and require assembly on site.

Torque Bit

To ensure that all fixings are secure, this Torque Bit is essential when installing your mesh fencing system

FENCE HEIGHT	BAY WIDTH	POST BOX SECTION	POST LENGTH (DIG IN)	POST LENGTH (BOLT DOWN)	DIG IN FOUNDATION DEPTH
0.9m	3000mm	60x40mm	1500mm	900mm	600mm
1.2m	3000mm	60x40mm	1800mm	1200mm	600mm
1.5m	3000mm	60x40mm	2100mm	1500mm	600mm
1.8m	3000mm	60x40mm	2400mm	1800mm	600mm
