Architectural Sophistication, Unrivalled Protection!

Elevate your security standards with the distinctive look and precision engineering of our Stripe Mesh (Paladin) fencing system. Designed for high-profile sites that demand a sophisticated visual signature alongside sturdy protection, this variable-pattern mesh offers an architectural elegance that conventional fencing cannot match. The combination of narrow and wide apertures creates a sleek, contemporary texture that gives enhanced anti-climb properties while maintaining through-visibility for surveillance. Whether you are defining the boundaries of corporate headquarters, a prestigious public park, or a high-security utility site, Stripe Mesh delivers a refined barrier that reinforces your perimeter's integrity without compromising its professional appeal.

Key Features

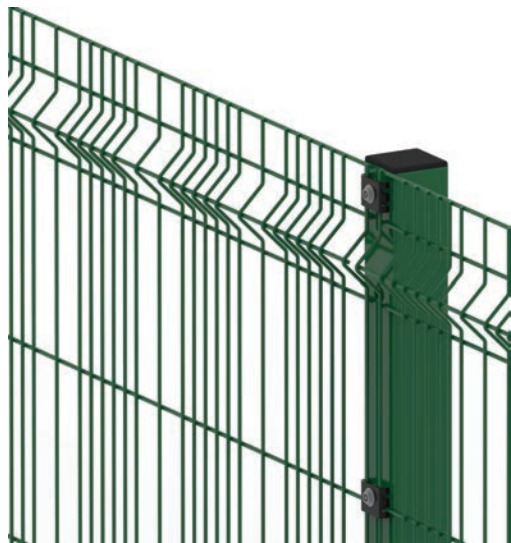

- ✓ **Distinct Aperture Design**
(Varying wire spacings offer a contemporary look with a non-threatening profile)
- ✓ **Integrated 'V' Beam Rigidity**
(V-shaped pressings run across the panel to provide strength & rigidity)
- ✓ **Anti-Climb & Anti-Cut Properties**
(Dense mesh pattern makes it extremely hard to cut or climb)
- ✓ **Optimised Surveillance Visibility**
(Ensures unobstructed sightlines for CCTV and security patrols)
- ✓ **Durable Finish**
(Pre-galvanised steel with powder coated finish)

Suitable For

- ✓ Educational Institutions
- ✓ Retail & Commercial Parks
- ✓ Public Parks & Leisure Facilities
- ✓ Data Centres & Logistics Hubs
- ✓ Utility & Infrastructure Sites

Stripe Mesh Profile

Logic of the Stripe

Dynamic Security: The variable mesh creates a striking visual rhythm that's as functional as it is aesthetic—engineered to aggressively deter cutting and climbing.

Structural Integrity: Integrated V-shaped ribs provide maximum rigidity and resistance to warping, delivering a high-strength, anti-sag profile without the added weight.

Technical Quick Reference

Component	Standard Specification
Mesh Aperture	200mm [H] x 22/45mm [W]
Wire Diameter	3.8mm [V], 4.5mm [H]
Material	Pre-Galvanised Steel
Finish	PPC
Top Edge	Smooth
Fixing System	M8 Bolts & Fencing Clips

Stripe Mesh Security Fencing Kits

Stripe Mesh is also known as paladin fencing or 3D fencing. The variable mesh pattern adds extra stiffness to the panels, making it stronger and difficult for intruders to gain a grip. Stripe mesh has a more high-end look whereas V mesh can appear more industrial, making it a good choice in more prestigious settings.

Our fencing kits are designed to provide a comprehensive, ready-to-deploy solution for any perimeter requirement. The kits are available 1.8m, 2.0m and 2.4m options. Each bay measures 3000mm (post centre to post centre).

Each kit comes with a polyester powder coat for a sleek professional appearance that can be matched to your corporate branding or surrounding landscape. The kits are available as a dig-in or bolt-down option and require assembly on site.

Torque Bit

To ensure that all fixings are secure, this Torque Bit is essential when installing your mesh fencing system

FENCE HEIGHT	BAY WIDTH	POST BOX SECTION	POST LENGTH (DIG IN)	POST LENGTH (BOLT DOWN)	DIG IN FOUNDATION DEPTH
1.8m	3000mm	60x60mm	2400mm	1800mm	600mm
2.0m	3000mm	60x60mm	2600mm	2000mm	600mm
2.4m	3000mm	60x60mm	3000mm	2400mm	600mm
