Uncompromising Strength, Secure Perimeters!

Our Mesh Fencing Post Systems provide a versatile, robust, and highly dependable solution for secure perimeter framing. Engineered for absolute durability, our range includes both Dig-In and Bolt-Down post options, each featuring a dual-layer defence of galvanisation and powder coating for superior weather resistance.

This specification covers our comprehensive Corner Post and Intermediate Post kits, available in standardised heights designed to accommodate our mesh fencing panels. To ensure a flawless finish, all post components are available in a coordinated powder-coated format, delivering a sleek, uniform aesthetic without compromising on structural integrity.

Key Features

- ✓ **Robust Profile**
(Provides excellent structural rigidity and lateral force resistance)
- ✓ **Dual Installation Formats**
(Dig-in and Bolt-Down options to accommodate different ground conditions)
- ✓ **Function Choice**
(Intermediate and corner posts available)
- ✓ **Customisable Height Range**
(A comprehensive range of heights to suit diverse requirements)
- ✓ **Protection & Aesthetics**
(Galvanised & Powder Coated for resilience, colour-match an existing scheme)

Suitable For

- ✓ Educational Facilities
- ✓ Public Parks & Green Spaces
- ✓ Commercial Business Parks
- ✓ Residential Developments
- ✓ Urban Regeneration Projects

Choose Your Style

Intermediate Post

Our dig-in & bolt-down posts provide a robust, long-term solution for mesh fencing systems.

Designed for both hard and soft-ground installation, these posts offer superior stability for new runs or as replacements.

Made from pre-galvanised steel with a choice of powder coating for extra resilience.

This can be used as an intermediate or end post.

Mesh Fencing Posts are supplied as post-only, and come with a ribbed insert, M8 x 40mm Bolts and Mesh Fencing Clips (mesh panel is not included).

Corner Post

Our corner posts are designed to work with mesh fencing of the same height. When your fencing needs to make a direction change, this post is ideal!

Available as a dig-in or bolt-down option so will be compatible with most types of ground substance.

As with the Intermediate Post, it is made from pre-galvanised steel with a polyester powder coating for ultimate protection and compatibility.

Mesh Corner Posts are supplied as post-only, and come with a ribbed insert, M8 x 40mm Bolts and Mesh Fencing Clips (mesh panel is not included).
