Carriage Fixing Kit
Specification Sheet
SPC-CANTILEVER-005A

Cantilever Gate Carriage Fixing Kit for Precision Anchoring

First Fence Carriage Fixing Kits provide a robust foundation for anchoring cantilever gate wheel carriages directly to concrete pads.

Essential for structural integrity and smooth operation, each kit includes a base plate tailored to the carriage footprint, concrete-cast foundation hooks, and high-strength fasteners.

Available in Medium/H900 and Magnum configurations, all components feature a fully galvanised finish for maximum corrosion resistance and extended outdoor service life.

Key Features

- Galvanised Finish
  (All components are galvanised for resistance to rust & outdoor weathering)
- Precision Footprint Matching
  (Pre-drilled base plates tailored to fit Medium/H900 & Magnum carriages)
- Cast-In Concrete Anchoring
  (Heavy Duty foundation hooks embed directly into wet concrete for stability)
- Complete Assembly Hardware
  (Includes matching fixings needed to secure the carriage to the plate)
- Versatile Sizing Options
  (Available in Medium/H900 & Magnum options for various gate requirements)

Suitable For

- Industrial Parks & Distribution Hubs
- High-Snowfall & Mud-Prone Regions
- Sloped or Uneven Driveways
- High-Security & Commercial Facilities
- Residential & Gated Communities

Technical Specifications

Medium Cantilever Carriage Fixing Kit - PF/P

Designed to be embedded into wet concrete for structural stability.

Compatible with the Medium and H900 cantilever carriages.

Dimensions	**150x300mm**
Depth	**250mm**
Material	**Yellow Galvanised Steel**

Magnum Cantilever Carriage Fixing Kit - PF/G

Designed to be embedded into wet concrete for structural stability.

Compatible with the Magnum cantilever carriages.

Dimensions	**250x470mm**
Depth	**250mm**
Material	**Yellow Galvanised Steel**
