Gate Posts & Accessories, Durable Hardware Solutions

Designed for compatibility, our Aluminium Gate Posts and Accessories provide the essential hardware needed to secure and elevate your aluminium gate system. Whether bolted to hard surfaces using the integrated base plates or dug into softer ground for maximum stability, their natural rust resistance ensures a long lifespan, avoiding the constant upkeep and decay associated with traditional timber or steel fixtures.

Featuring a versatile selection of robust posts alongside high-quality accessories—including protective push-fit caps, replacement hinges, reliable locks, and ergonomic handle sets—this collection ensures your entryway remains secure and operates smoothly. Available in multiple sizes to perfectly match your specific gate dimensions, these components require minimal maintenance to retain their aesthetic appeal.

Key Features

- ✓ **Corrosion-Resistant Aluminium Build**
(Lightweight aluminium naturally resists rust)
- ✓ **Versatile Installation Options**
(Posts have base plates for bolt down fixing, or can be dug into the ground)
- ✓ **Perfect Gate Compatibility**
(Available in multiple sizes to perfectly match your gate)
- ✓ **Comprehensive Hardware Suite**
(Supported by a complete range of functional accessories)
- ✓ **Protective Push-Fit Caps**
(Easy-to-install posts caps seal the tops of the gate posts)

Suitable For

- ✓ Residential Driveways & Garden Entrances
- ✓ Coastal & High-Weather Exposure Properties
- ✓ Commercial Estates & Business Parks
- ✓ Landscaping & Property Renovations
- ✓ Public Parks & Community Facilities

Versatile Aluminium Flanged Gate Posts

Designed to match our gate collection, these flanged posts provide a flexible mounting solution when direct attachment to an existing wall or masonry pillar is not possible. Whether utilised as standalone supports to frame a new entryway or as spacer posts to bridge awkward gaps between a boundary wall and the gate, they ensure your installation can adapt to any layout.

Constructed from high-strength, lightweight aluminium, the posts feature a standard 3.5mm wall thickness (upgraded to 5mm for heavy-duty applications).

Choice of Accessories

To complement the gate posts we offer a range of accessories to enhance the functionality of your gate system.

Post caps: A simple, effective way to protect and complete the look of your gate posts. These are an easy push-fit format, helping to prevent water entering the post.

Hinges & Gate Stops: Wall mounted hinges for single and double leaves, floor mounted hinges for use with posts, and gate stops to support in the closed position.

RAL 7016

RAL 9005

Flanged Gate Post for Driveway Gates

Adaptable Post Style

The ideal solution for securing your gates especially if you do not have existing walls or brick pillars for attachment. The posts come with a flanged base plate for bolt down installation. If you need to dig in your post this can be done with the flange intact or cut off.

Post Specification

Available in a 100x100mm or 150x150mm box section, 2.4m or 3.0m height, and a 3.5mm or 5mm post wall thickness. All posts are aluminium.

Choice of Colour

Available in a choice of Grey (RAL 7016) and Black (RAL 9005) powder coating

Post Caps for Aluminium Flanged Gate Posts

Adaptable Post Style

The ideal solution for securing your gates especially if you do not have existing walls or brick pillars for attachment. The posts come with a flanged base plate for bolt down installation. If you need to dig in your post this can be done with the flange intact or cut off.

Post Cap Specification

Available in a 100x100mm or 150x150mm box section. Made from Black plastic.

Colour

Available in Black only.

Hinges

Wall and Floor Mounted

Whether you are fitting a new gate or upgrading an existing set up, our quality hinges help control movement, preventing damage from excessive swinging or closing force. The adjustable hinge supports the top and bottom of the gate with 35mm adjustment. The Floor mounted hinge is for use with gate posts and provides extra support.

Hinge Specification

Small hinge: 83mm x 40mm, large hinge: 105mm x 50mm.
Floor mounted hinge: 111mm (L) x 50mm (W) x 25mm (H)

Colour

Available in Black only.

Gate Stop

For Double Gates

This black metal centre gate stop is designed to support your gates when closed, preventing over-swinging and potential damage to hinges and latches.

Colour

Available in Black only.
