Premium Driveway Gates, Secure Vehicle Access Solutions

Engineered for privacy, security, and modern curb appeal, our Aluminium Driveway Gates provide a strong, low-maintenance vehicle access solution for homes, commercial properties, and private roads. Made from lightweight, high-strength aluminium, these double swing gates withstand harsh weather while delivering reliable, long-lasting security. A rust-resistant aluminium framework and durable powder-coated finish protect against wear and corrosion, without the warping and upkeep associated with timber or iron.

Requiring only an occasional wash, these versatile gates are available in widths from 3000mm to 4500mm and heights from 1600mm to 2200mm. Offered in powder-coated black or grey, with vertical, horizontal, diagonal, bell-curved top, and partial privacy styles, they provide a secure, attractive entrance for homeowners, contractors, and property managers. Fully recyclable, this durable aluminium solution combines lasting performance with contemporary design.

Key Features

- ✓ **High-Strength & Rust-Proof**
(Durable and lightweight aluminium doesn't rust or warp)
- ✓ **Manual Operation, Automated Compatibility**
(Robust frame for smooth manual operation & automation compatibility)
- ✓ **Customisable Privacy Levels**

1

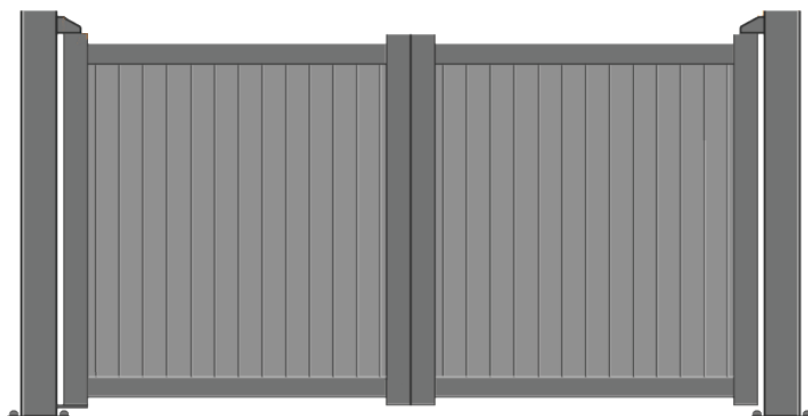

Vertical Solid Infill

The go-to choice for period homes, heritage properties, and commercial boundaries.

The classic vertical lines offer traditional elegance while providing a highly secure, anti-climb barrier for public-facing perimeters.

RAL 7016

RAL 9005

2

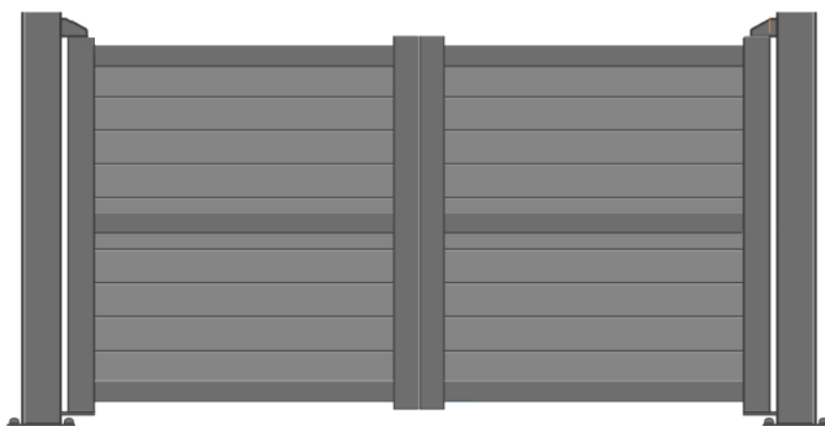

Horizontal Solid Infill

Ideal for contemporary new-builds, coastal properties, and homes featuring modern horizontal cladding.

The horizontal lines visually widen narrow driveway entrances and perfectly complement minimalist landscaping.

RAL 7016

RAL 9005

Call our Expert Sales Team for more information.

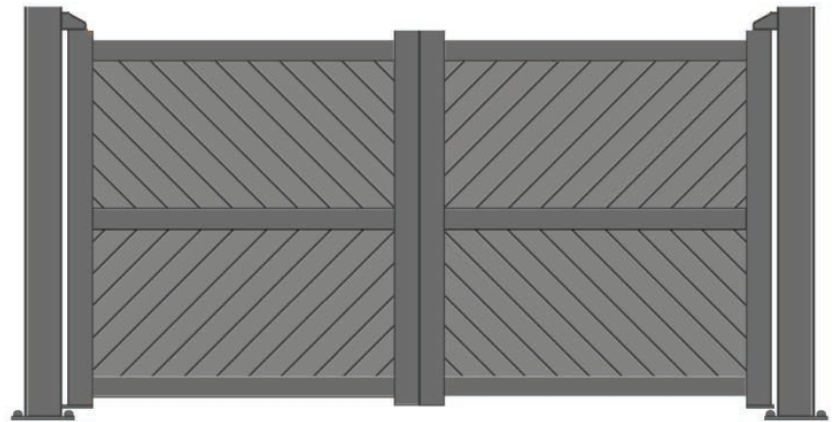

3

Diagonal Solid Infill

Perfect for architecturally designed homes and statement entrances. The bold, angled aesthetic serves as a stand out design feature while adding immense lateral structural rigidity for high-traffic or wind-exposed driveways.

RAL 7016

RAL 9005

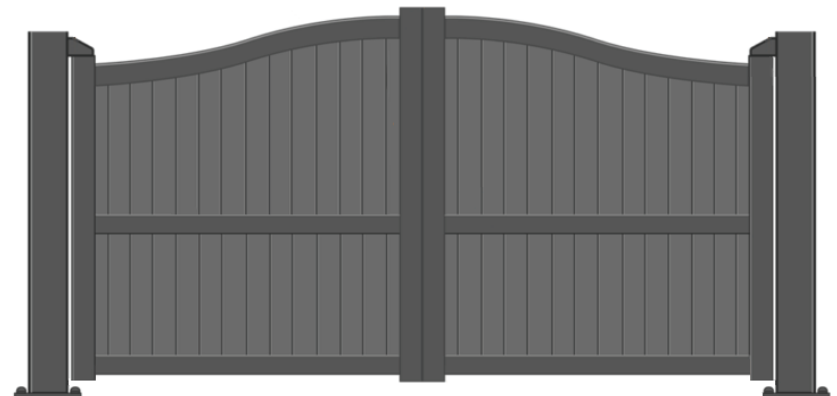

4

Vertical Infill and Bell-Curved Top

Best suited for grand residential driveways, country estates, and traditional suburban homes. The sweeping upper arch softens the boundary line and adds a stately, welcoming elegance to the property entrance.

RAL 7016

RAL 9005

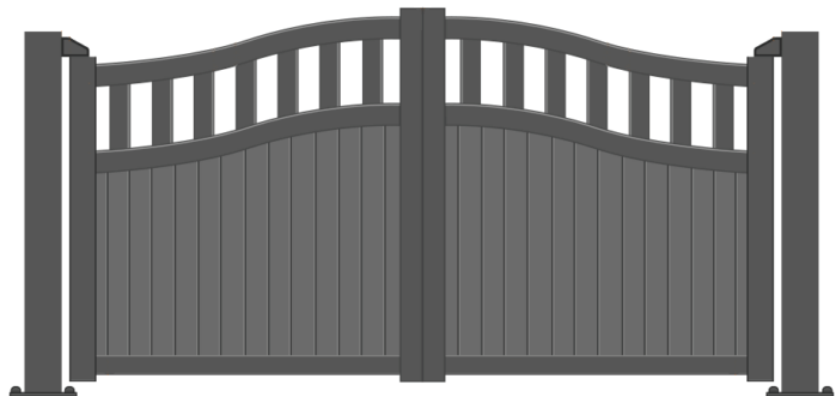

5

Vertical Infill and Partial Privacy

Excellent for family homes on busy residential streets. It offers the classic aesthetic and security of vertical slats, combined with lower solid panels to keep pets and small children safely enclosed while retaining visibility at the top.

RAL 7016

RAL 9005

Call our Expert Sales Team for more information.

6

Diagonal Infill and Partial Privacy

Ideal for high-end modern estates and urban properties. This combination delivers a striking, contemporary architectural statement while partially obscuring the driveway from street-level view to balance design with discretion.

RAL 7016

RAL 9005

7

Larger Partial Privacy

This style offers the ideal balance between privacy, security and visibility.

The solid vertical infill design, bell-curved top and partially open section provides an open and welcoming appearance while maintaining a secure boundary.

RAL 7016

RAL 9005

8

Black Executive and Partial Privacy

Tailored for corporate headquarters, upscale business parks, and luxury gated communities. The commanding black finish and structured privacy panels project a highly professional, authoritative, and prestigious image for high-end access control.
