Sheep Hurdles

Specification Sheet

SPC-SHEEP-001A

Flexible Livestock Management, Unyielding Durability

Designed for agricultural sites requiring efficient animal control and secure enclosures, our 4ft and 6ft Galvanised Steel Sheep Hurdles provide a robust, adaptable penning solution.

Engineered from high-quality galvanised steel for long-term performance and weather resistance, these 7-rail interlocking systems are purpose-built to safely contain sheep and small livestock and maintain order while ensuring optimal handling efficiency.

This versatile collection serves as a highly effective containment and management tool for agricultural operations of all scales—offering a secure, customisable boundary for temporary pens, sorting areas, raceways, and both indoor barn and outdoor field environments.

Key Features

- 7-Rail Sturdy Structure
  (Reliable strength and security for sheep and small livestock)
- High-Quality Galvanised Steel
  (Resists rust and weathering for long-lasting use indoors or outdoors)
- Interlocking System
  (Enables quick, tool-free set up and flexible configurations for pens & sorting areas)
- Lightweight and Portable
  (Easy to handle, reposition and stack, saving valuable storage space)
- Optional PPC Finishes
  (Available in green, black or custom colours for an aesthetic upgrade)

Photos are for illustration purposes only

Suitable For

- Temporary Lambing Pens
- Livestock Sorting Areas
- Agricultural Raceways
- Indoor Barn Segmentation
- Outdoor Field Enclosures

Specification

HEIGHT	WIDTH	No. of Rails	WEIGHT	MATERIAL	FINISH

Sheep Hurdles

Specification Sheet

SPC-SHEEP-001A

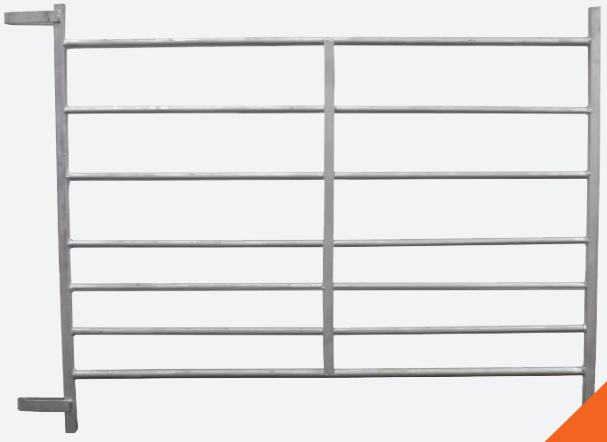

Sheep Hurdle - 4ft

Engineered for optimal ‘mothering-up,’ the 4ft sheep hurdle is the premier choice for lambing season.

A standard configuration of four panels creates a perfect 1.2m² pen—providing just the right amount of space to keep a ewe safely close to her newborns.

This compact environment fosters crucial early bonding while allowing farmers to easily and closely monitor the lambs' vital milk intake.

The 4ft sheep hurdle is available in a single unit or in a 50 and 100 package deal. The packages offer a cost-effective solution for farmers and agricultural businesses requiring multiple strong, portable livestock hurdles.

Available as galvanised or RAL colours

Package Deals Available

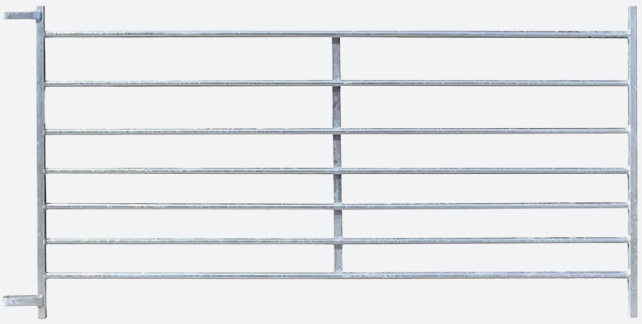

Sheep Hurdle - 6ft

When you need to cover ground quickly, the 6ft sheep hurdle is the answer.

These are perfect for creating large holding areas or dividing large barns into manageable sections.

Using a 6ft length means fewer connection points, resulting in a sturdier run for moving groups of sheep.

The 6ft sheep hurdle is also available as a single or multi-pack offer. The 50 or 100-Panel Package Deal offers a practical and cost-effective containment system for agricultural handlers. They provide the flexibility needed to easily construct large-scale livestock pens, sorting areas, holding facilities, and temporary enclosures for sheep, lambs, and small livestock.

Available as galvanised or RAL colours
