Urban Cycle Storage & Secure Bike Parking

Engineered for high-traffic durability and long-term security, our Sheffield Cycle Stand collection delivers superior bicycle parking for urban landscapes, transport hubs, educational facilities, and commercial sites. Manufactured from high-grade 48mm tubular galvanised steel and premium Grade 304 stainless steel, this weather-resistant range features a seamless, weld-free bent construction that maximises structural integrity, preventing corrosion, rusting, and physical compromise while drastically reducing maintenance costs.

Ranging from cost-effective galvanised models to high-shine stainless steel finishes, our versatile dig-in and bolt-down configurations adapt to any surface layout—offering architects, facilities managers, and contractors a sleek, secure, and highly functional solution to keep public spaces organised and cycle-friendly.

Key Features

- Seamless 48mm Tubular Construction
(Tubular steel with a bent design eliminating weak welds for superior strength)
- Superior Corrosion Resistance
(Galvanised or Grade 304 stainless steel for long-term rust protection)
- Dual-Point Locking Security
(Designed to allow cyclists to lock both frame and wheels to the stand)
- Flexible Installation Options
(Offered in dig-in and bolt-down options)
- Multi-Sector Versatility
(Ideal for high-density public places to encourage eco-friendly transport)

Suitable For

- Town & City Centres
- Transit & Transport Hubs
- Educational Campuses
- Parks & Recreational Areas
- Commercial & Corporate Premises
