Streamlined for Style, Structured for Security!

Our Flat Top Railings offer a clean-lined and robust fencing solution that blends a contemporary, minimalist aesthetic with exceptional structural integrity. Characterised by their sleek, straight vertical bars and horizontal top rail, these railings provide a formal and authoritative perimeter ideal for commercial properties, urban housing projects, and public spaces where a professional and orderly appearance is paramount.

To ensure a perfect fit for any project environment, we offer these railings in 1.0m and 1.2m heights, with a bay width of 2.7m. Depending on your site requirements, these units can be supplied for dig-in installation or with integrated base plates for bolt-down applications on hard standing. To provide a premium finish that lasts, our railings are available with a high-quality Polyester Powder Coating (PPC). This finish is available in a spectrum of RAL colours, allowing you to match existing corporate branding or blend the perimeter into the natural surroundings, all while providing an extra layer of protection against UV fading and environmental wear.

Key Features

- ⊗ **Contemporary Aesthetic**
(The clean lines offer a minimalist look that complements most settings)
- ⊗ **High Strength Construction**
(Made from robust steel, they offer a physical barrier with impact resistance)
- ⊗ **Customisable Finish**
(Available in a choice of RAL colours to match an existing theme)
- ⊗ **Versatile Installation**
(Available in a dig-in or bolt-down format to suit any site conditions)
- ⊗ **Weather Resistance**
(The combination of galvanised steel and PPC ensures long-term protection)

Suitable For

- ⊗ Modern Residential Developments
- ⊗ Public Urban Spaces
- ⊗ Educational Facilities
- ⊗ Retail Outlets
- ⊗ Commercial Business Parks

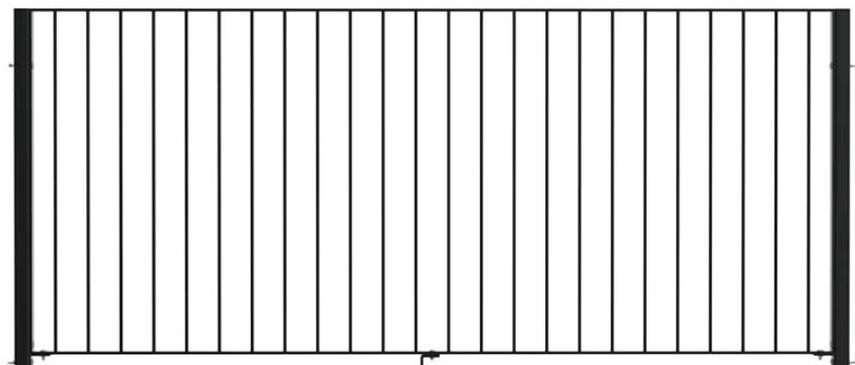

Choose Your Style

Dig In or Bolt Down, Galvanised or PPC

Our Flat Top Railing Heights, available in 1.0m and 1.2m, are ideal for low-level boundaries or urban perimeters, providing a streamlined and professional safety solution. These heights are perfectly suited for defining property lines or creating tidy partitions in public spaces without obstructing sightlines.

Our systems are available in both Dig-In and Bolt-Down configurations, allowing you to choose between a permanent concrete-set foundation or a space-efficient surface fix on hard standing.

Both height options feature an optional premium Polyester Powder Coating (PPC) in a full spectrum of RAL colors, ensuring a vibrant, rust-free finish that can be tailored to your exact aesthetic requirements while providing long-term protection against the elements.

Flat Top Railings are available as bolt-down and dig-in formats to suit hard and softer ground substances.

Don't forget to add post mix or ground anchor bolts to your order!

Railings Specifications

HEIGHT	BAY WIDTH	MATERIAL	FINISH	POST HEIGHT	POST SECTION
1.0m	2700mm	Galvanised Steel	Galvanised/PPC	1000mm Bolt Down/1500mm Dig In	50mm x 50mm
1.2m	2700mm	Galvanised Steel	Galvanised/PPC	1200mm Bolt Down/1650mm Dig In	50mm x 50mm

Railings Product SKUs

Install Type	Height	SKU
Dig In	1.0m	RAIL-KIT-8152
Dig In	1.2m	RAIL-KIT-8153
Bolt Down	1.0m	RAIL-KIT-8052
Bolt Down	1.2m	RAIL-KIT-8053

Essential Extras

For a strong installation, you will need post mix or ground anchor bolts, depending on the post style (dig in or bolt down format).

Post Mix
POST-MIX-0001

M12 x 115mm Ground Anchor
ACCS-GEN-1001

M16 x 190mm Resin Stud
ACCS-GEN-15015

Injection Resin Vinyl Ester Cartridge
ACCS-GEN-1950

Pristine Protection

A RAL-matched touch-up spray is the ultimate insurance policy for your new railings.

While powder coating is incredibly durable, minor scuffs from transit or installation are often unavoidable.

By matching the exact colour of your ball top railings, you can instantly vanish nicks and seal the steel against moisture.

Why it's a "Must-Have" for Railings

Corrosion Defence: Even a tiny scratch can become a gateway for rust on outdoor steel.

Invisible Repairs: Standard hardware store blacks rarely match the depth of a professional RAL 9005 (Jet Black) or RAL 6005 (Moss Green).

Customer Satisfaction: Saves the homeowner or contractor the massive headache of trying to colour-match after the delivery truck has left.
