

Key Features

- **Modular Design**
(Allows quick and straightforward installation)
- **Dig-In Format**
(Suited to most ground types)
- **Durability and Safety**
(Keeps spectators safe, is corrosion-resistant and long-lasting)
- **SAPCA Compliant**
(Developed in compliance with the SAPCA Code of Practice)

Suitable For

- **Football Fields and Stadiums**
- **Athletics Tracks**
- **Rugby and Cricket Grounds**
- **Public Parks and Playgrounds**
- **Community Sports Facilities**

SAPCA Compliant (Pedestrian Barrier)

Designed to meet SAPCA Code 1.2.4, with a 1.2m recommended height, featuring a 48.3mm diameter tubular top rail, secured using 6 M8 threaded bolts per bay.

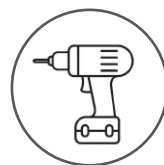

BS 12604 Compliant

Incorporate the First Fence safety tether (gate restrainer) to ensure compliance with safety standards in case of hinge failure. The 180° hinge allows the gate to swing back against the fence without obstructing the walkway, improving safety.

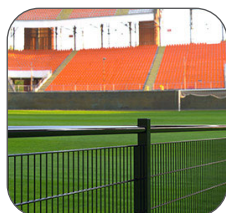

Modular Design

The SpectaRail[®] Fencing and Gate kits come with all the components needed for one bay or gate, allowing you to build a bespoke setup.

Easy Installation

SpectaRail[®] is lightweight and modular, allowing quick and straightforward installation. Add end or corner posts as required to form straight or rectangular systems.

Specification

Material	Pre-Galvanised Steel
Finish	Polyester Powder Coated
Colour	Black or Green as standard
Dimensions (fencing)	1.2m H x 2.59m W
Dimensions (single leaf)	1.2m H x 1.5m W
