

Key Features

- **Durability and Strength**
(Treated timber can last between 10 and 30 years)
- **Eco-Friendly**
(A sustainable and biodegradable fencing option)
- **Cost-Effective**
(Affordable compared to steel or concrete alternatives)
- **Easy Installation**
(Can be hand-driven or machine-driven into the ground)
- **Versatility**
(Convenient post kits, suitable for wire, electric, barbed or rail fencing)

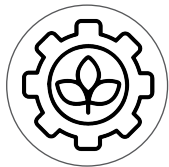

Suitable For

- Livestock & Animal Enclosures
- Boundary & Perimeter Fencing
- Crop & Land Protection
- Garden & Smallholding Uses
- Erosion Control & Environmental Projects

Durable

Tanalised UC4 or Creosoted, timber posts are protected against rot and fungal decay, insect attack and moisture damage.

Sustainable

Wood is a renewable, low-impact material that uses less energy to produce than concrete or metal, and can often be reused or repurposed at the end of its life.

Easy to Install

Wooden fence posts are lighter than concrete or steel, easy to handle without machinery, and can be driven in manually or by machine. Strainer posts do not usually require post mix, however struts are often concreted in for stability.

Versatile

Timber blends into most environments and so can be used in many ways from farms to gardens, commercial properties and landscaping projects.

Specification

Post Type	Dig In
Finish	Tanalised UC4 or Creosoted
Heights	To suit 80-120cm mesh fencing To suit 60-120cm 1" netting To suit 150-190cm mesh fencing To suit 180cm 1" netting
Material	Cundy Peeled Timber
Strainer posts are usually driven into the ground and backfilled; struts can be concreted-in for stability.	

Good to Know!

Cundy Peeled

Cundy peeled posts are a type of fence post that has had its bark removed, leaving the natural tapered shape of the log. This is why the diameter is referred to as 125/150 etc, it varies down the length of the post.

UC4 or Creosote

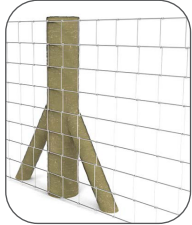

Tanalised UC4 timber is pressure-treated with preservatives to high standards and can be used in-ground. Creosote and tanalising protect against rot and insect damage. Check local regulations before installing creosoted posts.

Intermediate Strainer Post Kits

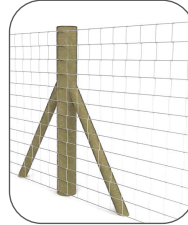

Timber Intermediate Strainer Post Kit to Suit 80cm to 120cm Fencing - WEB-04178

This kit is for wire mesh fencing between 80cm & 120cm in height (installed). The kit comes with 1 strainer post and 2 struts, and as a UC4 or Creosoted finish.

Kit Contents

- 2.4m x 150/175 Timber Post (UC4 or Creosoted) x1
- 2.4m x 75/100 Timber Post (UC4 or Creosoted) x2

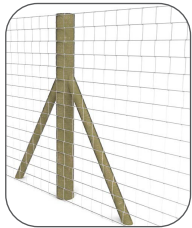

Timber Intermediate Strainer Post Kit to Suit 60cm to 120cm 1" Netting - WEB-04180

This kit is for 1" netting between 60cm & 120cm in height (installed). This kit comes with 1 strainer post and 2 struts, and as a UC4 or Creosoted finish.

Kit Contents

- 2.1m x 125/150 Timber Post (UC4 or Creosoted) x1
- 2.4m x 75/100 Timber Post (UC4 or Creosoted) x2

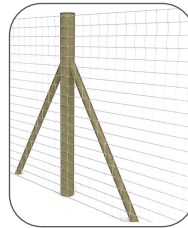

Timber Intermediate Strainer Post Kit to Suit 150cm to 190cm Fencing - WEB-04179

This kit is for wire mesh fencing between 150cm & 190cm in height (installed). This kit comes with 1 strainer post and 2 struts, and as a UC4 or Creosoted finish.

Kit Contents

- 3.0m x 150/175 Timber Post (UC4 or Creosoted) x1
- 2.7m x 75/100 Timber Post (UC4 or Creosoted) x2

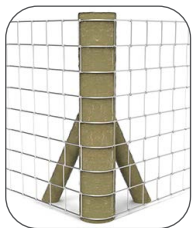

Timber Intermediate Strainer Post Kit to Suit 180cm 1" Netting - WEB-04181

This kit is for 1" netting 180cm in height (installed). This kit comes with 1 strainer post and 2 struts, and as a UC4 or Creosoted finish.

Kit Contents

- 2.4m x 125/150 Timber Post (UC4 or Creosoted) x1
- 2.4m x 75/100 Timber Post (UC4 or Creosoted) x2

Corner Strainer Post Kits

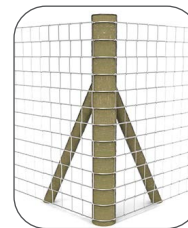

Timber Corner Strainer Post Kit to Suit 80cm to 120cm Fencing - WEB-04182

This kit is for wire mesh fencing between 80cm & 120cm in height (installed). The kit comes with 1 strainer post and 2 struts, and as a UC4 or Creosoted finish.

Kit Contents

- 2.4m x 150/175 Timber Post (UC4 or Creosoted) x1
- 2.4m x 75/100 Timber Post (UC4 or Creosoted) x2

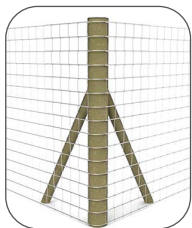

Timber Corner Strainer Post Kit to Suit 60cm to 120cm 1" Netting - WEB-04184

This kit is for 1" netting between 60cm & 120cm in height (installed). This kit comes with 1 strainer post and 2 struts, and as a UC4 or Creosoted finish.

Kit Contents

- 2.1m x 125/150 Timber Post (UC4 or Creosoted) x1
- 2.4m x 75/100 Timber Post (UC4 or Creosoted) x2

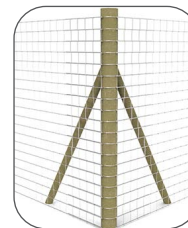

Timber Corner Strainer Post Kit to Suit 150cm to 190cm Fencing - WEB-04183

This kit is for wire mesh fencing between 150cm & 190cm in height (installed). This kit comes with 1 strainer post and 2 struts, and as a UC4 or Creosoted finish.

Kit Contents

- 3.0m x 150/175 Timber Post (UC4 or Creosoted) x1
- 2.7m x 75/100 Timber Post (UC4 or Creosoted) x2

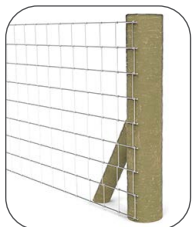

Timber Corner Strainer Post Kit to Suit 180cm 1" Netting - WEB-04185

This kit is for 1" netting 180cm in height (installed). This kit comes with 1 strainer post and 2 struts, and as a UC4 or Creosoted finish.

Kit Contents

- 2.4m x 125/150 Timber Post (UC4 or Creosoted) x1
- 2.4m x 75/100 Timber Post (UC4 or Creosoted) x2

End Strainer Post Kits

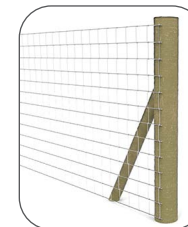

Timber End Strainer Post Kit to Suit 80cm to 120cm Fencing - WEB-04186

This kit is for wire mesh fencing between 80cm & 120cm in height (installed). The kit comes with 1 strainer post and 1 strut, and as a UC4 or Creosoted finish.

Kit Contents

- 2.4m x 150/175 Timber Post (UC4 or Creosoted) x1
- 2.4m x 75/100 Timber Post (UC4 or Creosoted) x1

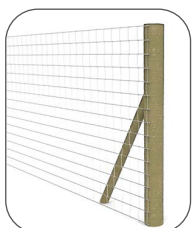

Timber End Strainer Post Kit to Suit 60cm to 120cm 1" Netting - WEB-04188

This kit is for 1" netting between 60cm & 120cm in height (installed). This kit comes with 1 strainer post and 1 strut, and as a UC4 or Creosoted finish.

Kit Contents

- 2.1m x 125/150 Timber Post (UC4 or Creosoted) x1
- 2.4m x 75/100 Timber Post (UC4 or Creosoted) x1

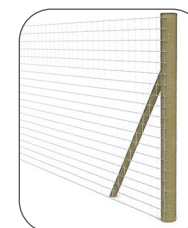

Timber End Strainer Post Kit to Suit 150cm to 190cm Fencing - WEB-04187

This kit is for wire mesh fencing between 150cm & 190cm in height (installed). This kit comes with 1 strainer post and 1 strut, and as a UC4 or Creosoted finish.

Kit Contents

- 3.0m x 150/175 Timber Post (UC4 or Creosoted) x1
- 2.7m x 75/100 Timber Post (UC4 or Creosoted) x1

Timber End Strainer Post Kit to Suit 180cm 1" Netting - WEB-04189

This kit is for 1" netting 180cm in height (installed). This kit comes with 1 strainer post and 1 struts and as a UC4 or Creosoted finish.

Kit Contents

- 2.4m x 125/150 Timber Post (UC4 or Creosoted) x1
- 2.4m x 75/100 Timber Post (UC4 or Creosoted) x1
