

Key Features

- Easy Installation
(Mesh can be directly attached to posts, minimal set up required)
- Choice of Post Finishes
(Tanalised UC4 or creosoted finish to suit various needs and purposes)
- Cost Effective
(Low cost mesh rolls for demarcation or keeping animals safe)
- Galvanised to BS 10346
(Galvanised finish compliant to latest standards)
- Strength & Resilience
(High-tensile square mesh, resistant to pressure from wind and animals)

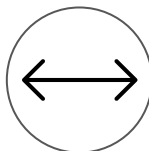

Suitable For

- Fields
- Crops
- Deer keeping
- Scavenger protection
- Flat ground or inclines

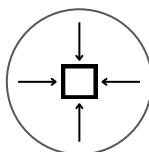

Visually unobstructive

Square mesh design allows for unobstructed view for keeping an eye on crops or animals, close up or from afar.

High-strength wire

High tensile wire in a square mesh pattern gives strength enough to stand against regular pressure from wind, animals and pedestrians.

Smaller spacing

AntlerGuard® has a smaller mesh spacing, specifically designed so deer can't reach their mouths or hooves through, keeping them safe and secure.

Strong and secure

With a high tensile strength and fixed knot joints, this mesh offers enough protection to last throughout consistent use

Specifications

Roll height	190cm
Roll length	100m per roll
Wire thicknesses	LHT: 2.0mm HT: 2.5mm
Tensile strength	Horizontal: 1235-1390 N/mm2 Vertical: 695-850 N/mm2
Material	Galvanised steel (BS 10346)
Finish	Zinc coated for longevity
Roll weight	LHT: 45kg HT: 70.4kg
Post centers	Intermediate strainer post every 3m (approx)
Knot type	Fixed knot
Recommended Fixings	Fencing Staples J-Pins Grippler Plus
