# Stainless Steel Grade 304
# Specification Sheet
# SPC-STE-001A

## Key Features

- **Strength**
  (These bollards have a thick stainless steel wall)
- **Visibility**
  (Shiny steel surface increases visibility)
- **Corrosion Resistant**
  (Stainless steel remains resistant even when damaged)
- **Variety**
  (Comes in a range of heights and diameters to suit the installer)

## Suitable For

- **Shopping Centers**
- **Hospitality Venues**
- **Public Walkways**
- **Cycle Lanes**
- **Commercial Developments**

### Versatile
The stainless steel bollards come in two heights and a range of diameters, with dig in or bolt down options to suit various situations.

### Corrosion Resistant
Stainless steel contains chromium, which can form a self-replenishing layer of protection

### Stainless Steel
Stainless steel gives a modern and polished appearance, making this an attractive and practical solution

### Long Lasting
Bollards are engineered from robust, high-quality materials to provide long-lasting durability, ensuring they withstand heavy use and harsh environmental conditions.
