DO NOT SCALE DRAWING

Thanks to the centrally welded mesh and the ability to mount the lock kit on either side, these kits provide maximum flexibility for various gate configurations.

4mm Thick Plate Slider Cover

The Apollo Lock Kits offer a universal solution for gate installations, allowing both right-hand and left-hand hanging.

Bottom Lock Cover – Designed to eliminate the foothold on the gate. Installation is optional and depends on whether the customer prefers to secure the gate using a lock between the gate leaf and post, rather than beneath the lock plate.
