Perimeter Strength, Maintenance-Free Design!

DuraPost[®] Galvanised Steel Posts deliver a superb combination of structural resilience and installer-friendly engineering, designed to integrate with professional landscaping and boundary fencing systems.

Constructed from high-strength, galvanised steel, these posts offer a high-durability solution that prevents wind damage while maintaining a secure perimeter. They serve as a resilient and reliable backbone for a wide range of environments, including exposed residential gardens, commercial properties, and public sector developments.

Precision-built for long-term field performance, each post is zinc-galvanised to withstand the rigours of subterranean concrete embedding and constant environmental exposure. Available as a 2.4m, 2.7m and 3.0m length post with a 25-year manufacturer guarantee.

Key Features

- ⊙ **High-Strength Wind Resistance**
(Cold-rolled steel H-profile tested to withstand 110 mph winds)
- ⊙ **Lightweight & Ergonomic Profile**
(Weighs up to 80% less than a traditional concrete post, can be carried by one person)
- ⊙ **Maintenance-Free Longevity**
(Hot-dip galvanised to protect against corrosion, no painting or staining required)
- ⊙ **Universal Infill Compatibility**
(Versatile H-channel accepts timber close board, feather edge or Durapost systems)
- ⊙ **Enhanced Perimeter Security**
(Drills directly to the posts via the pre-drilled holes, panels cannot be lifted from exterior)

Suitable For

- ⊙ Livestock & Agricultural Boundaries
- ⊙ Forestry & New Plantations
- ⊙ Nature Reserves & Conservation Sites
- ⊙ Equine Facilities & Paddocks
- ⊙ Transport & Infrastructure Verges

SPECIFICATION	48mm x 2400mm	48mm x 2700mm	48mm x 3000mm
SKU	TIMB-ECH-0900	TIMB-ECH-0920	TIMB-ECH-0940
Total Post Height	2400mm	2700mm	3000mm
Dig-In Depth	Minimum 600mm	Minimum 600mm	Minimum 600mm
Post Dimensions	55x54mm	55x54mm	55x54mm
Total Weight	7.10 kg	8.0 kg	8.90 kg
Material	Galvanised Steel	Galvanised Steel	Galvanised Steel
