

Key Features

- ☑ **Durability and Strength**
(Treated timber can last between 10 and 30 years)
- ☑ **Eco-Friendly**
(A sustainable and biodegradable fencing option)
- ☑ **Rural Design**
(Pleasing, rustic design compatible with most home and agricultural fencing)
- ☑ **Flexible Installation**
(Can be installed in different configurations, with various hardware)
- ☑ **Open Rail Layout**
(Open design enhances visibility and airflow)

Suitable For

- ☑ **Livestock & Animal Enclosures**
- ☑ **Boundary & Perimeter Fencing**
- ☑ **Crop & Land Protection**
- ☑ **Gardens & Driveways**
- ☑ **Environmental Projects**

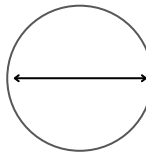

Visually unobstructive

Open rail design allows for unobstructed, enhanced view of crops, animals and landscapes, close up or from afar.

Robust Construction

Strong iroko hardwood with braced rail configuration resists pressure from wind or livestock while keeping weight down.

Width variation

With a variety of gate widths, this range of ranch gates is designed to be perfectly fit for purpose.

Weather Resistant

Pressure treated timber is resistant to rain and groundwater, allowing these gates to withstand the elements over time.

Specifications
