Timber Fence Infill Slats

Specification Sheet

SPC-TIMB-002A

Versatile Timber Infills, Tailored Boundary Solutions

Engineered for privacy, flexibility, and contemporary outdoor appeal, our Timber Infills provide a robust, adaptable boundary solution for private gardens, commercial grounds, and public parkland. Made from high-quality, pressure-treated timber and built to withstand harsh weather, this versatile slatted system enhances outdoor aesthetics while delivering a reliable, long-lasting visual and physical barrier.

Featuring clean-lined 44mm x 18mm profile slats, these easy-to-install timber infill components are available in lengths of 1.2m, 1.5m, 1.8m, 2.0m, 2.4m and 3.0m to suit a wide range of system heights and screen designs. Available as individual slats, this fully customisable, low-maintenance timber solution provides landscape contractors, property managers, and homeowners with the structure, safety, and modern screening needed for a broad array of outdoor projects.

Key Features

- Versatile Profile Thickness
  (44mm x 18mm to suit various system needs)
- Six Standard Heights
  (Offered in 1.2m, 1.5m, 1.8m, 2.0m, 2.4m and 3.0m heights)
- Pressure-Treated Timber
  (Treated for maximum resistance against rot, insect attack and harsh weather)
- Customisable Screening Design
  (Individual slat system allows for adjustable placing)
- System Compatibility
  (Integrates with a variety of system styles)

Suitable For

- Custom Boundary Fencing/Garden Screening
- Pergola, Bin Store & Utility Cladding
- Zoning Patio & Outdoor Dining Areas
- Modular Wall & Planter Feature Screens
- Property Line & Pet Enclosures

	1.8m (1730mm)	//	//
	2.0m (1930mm)	//	//
	2.4m (2330mm)	//	//
	3.0m (2930mm)	//	//
Timber Horizontal Brace	3.0m (2950mm)	44mm x 18mm	Timber
	2.5m (2430mm)	//	//

Pressure-treated for enhanced weather, rot and insect resistance.
Premium, responsibly sourced timber.

Installation Disclaimer:

These timber slats can be fitted to our V Mesh panels for custom applications; however, we have not load-tested this combination.

The buyer assumes all responsibility for verifying that the fence framework, posts, and ground fixings can safely withstand the increased wind load and physical weight.
